

# Services

We are dedicated to helping our customers maximize uptime by keeping their machines up to date with preventative maintenance and identifying areas of concern before downtime occurs. Our foremost concern is keeping your asset producing.

## INSTALL YOUR INVESTMENT

- RND coupled with your team to ensure that your asset is producing as soon as it arrives onsite.
- Operator and Support training for your machine onsite to empower your team.

## SUPPORT YOUR INVESTMENT

- Does your team require Maintenance, Robot, PLC, HMI training? RND can train your team.
- Inventory of Spare Parts for your machine to avoid supply chain challenges.

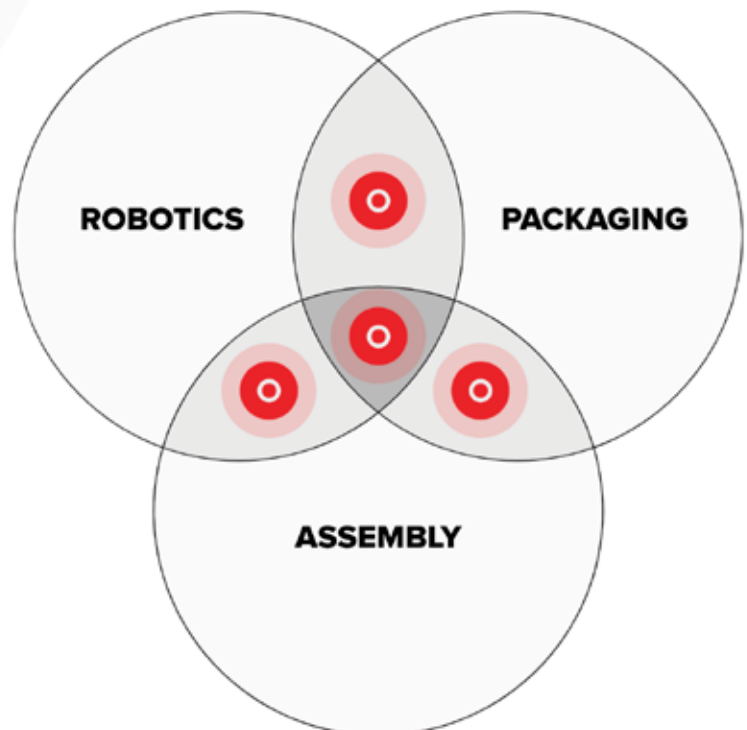

## PROTECT YOUR INVESTMENT

- Regular inspections before startup
- Preventative Maintenance activities
- RND Maintenance Agreements

## ENHANCE YOUR INVESTMENT

- Does your team have ideas that would provide more throughput and efficiency for your facility?
- Now that your ROI has been achieved, are you ready to grow your automation base? Our team can help.

—  
automate  
your future.

# Our Valued partners

We automate.  
**Our people differentiate.**

## Frank Matheny SERVICE & PARTS MANAGER

At RND, we are dedicated to supporting your investment throughout its lifecycle, from installation to maintenance, upgrades, and expansion. Early in my career, I spent 16 years in a factory environment and understand the need to ensure equipment is reliable and producing product. We strive to ensure that your automation solutions deliver long-term value and drive your business forward.
